

Summer flux campaign at National atmospheric observatory Košetice within ACTRIS-2, JRA2

Campaign is going to be started on August, 15th 2017 and last approximately one month. Raman and Doppler LIDARs will be installed at National atmospheric observatory Košetice (NAOK), Czech Republic.

You can use TNA procedure to participate in this campaign ([http://www.actris.eu/DataServices/ObservationalFacilities/TransNationalAccess\(TNA\)Procedure.aspx](http://www.actris.eu/DataServices/ObservationalFacilities/TransNationalAccess(TNA)Procedure.aspx)).

N/B: Please note that for this campaign like any other joint research activity campaign the call is open to all partner institutions except those that are directly involved in the JRA2 activity.

For further information, please visit the campaign website (www.actris-ri.cz/campaigns) or contact Adela.Holubova@chmi.cz or Milan.Vana@chmi.cz
